

### SAFETY DATA SHEET

In Accordance with 4th revised edition of GHS

Section 1 – Identification				
Product Name :	POLIMAXX <sup>®</sup> Polypropylene Copolymer Plastic Resin			
Chemical Name and Synonyms:	Polypropylene, polypropylene copolymer with ethylene as co-monomer propylene-ethylene copolymer, ethylene-propylene copolymer, PP			
Chemical Formula :	$(C_3H_6)n + (C_2H_4)x$			
Product Code :	2500M			
Product Use :	Raw material for plastic industry, Resin, extrusion and compounding, plastic molding, molded articles, films and coatings			
Manufacturer :	IRPC Public Company Limited. 299 Moo 5 Sukhumvit Road, Amphur Muang Rayong, THAILAND			
Emergency Call :	+66(0) 38 802560			
Website :	www.irpc.co.th, www.irpcmarket.com			
Section 2- Hazards Identifica	ition			
Regulation (EC) No 1272/2008:	This product is not classified as dangerous according to Regulation (EC) No 1272/2008.			
Directive 67/548/EEC :	This product is not classified as dangerous according to EU Directive 67/548/EEC.			
Regulation (EC) No 1907/2006:	This product is complied REACH Regulation (EC) No 1907/2006.			
GHS :	Not classified			
Label elements :	Not applicable			
Other hazards	Not applicable			

#### Section 3 - Composition / Information on Ingredients

Chemical Name	CAS Number	EC Number	Percent weight
Polypropylene	9003-07-0	Polymer	≥90
Propylene Ethylene Copolymer	9010-79-1	Polymer	≤ 10

#### Section 4 – First-aid Measures

Skin Exposure	: If molten material comes in contact with the skin, cool under ice water or a running stream of water. DO NOT attempt to remove the material from the skin. Remove could result in serve tissue damage. Get medical attention.
Eyes Exposure	: If molten material should splash into eyes, flush eyes immediately with fresh water for 15 minutes while holding the eyelid open. Remove contact lenses, if worn. Get immediate medical attention.
Inhalation	: Move the exposed person to fresh air. If breathing is difficult, give oxygen. Get medical attention if breathing difficulties continue.
Ingestion	: Not a probable route of exposure. If person is conscious, rinse mouth with water. Do not induce vomiting unless directed to do so by a physician.

บริษัท ไออาร์พีซี จำกัด (มหาชน)

1

#### **Section 5** – Fire-fighting Measures

Suitable extinguishing agents:	Dry chemical, foam, water fog or carbon dioxide. Avoid using direct streams of		
	water on molten burning material		
Hazards during fire-fighting :	Carbon monoxide, carbon dioxide, original monomer other hydrocarbon.		
Protective equipment :	Use a mask with universal filler. Use self-contained breathing apparatus and		
	full protective clothing.		

#### Section 6 - Accidental Release Measures

Personal precautions	: Avoid inhalation and direct contact.			
<b>Environmental precautions</b>	: Discharge into the environment must be avoided.			
Cleanup	: Collect spilled material using a method that minimizes dust generation (e.g. wet methods, HEPA vacuum). Place waste in an appropriate container for disposal. Use care during clean-up to avoid exposure to the material and injury from broken containers.			
Section 7 – Handling and S	Storage			

Handling	: Use with adequate ventilation. Avoid dust generation. Avoid contact with eyes and skin. Accumulations of dust should be removed from settling areas.
Storage conditions	: Store in a cool, dry, well-ventilated area or silo away from sources of heat, flame and sparks. Ventilate enclosed storage areas, such as trailers and railcars, before entering. Have emergency equipment for fires and spills readily available.

#### Section 8 - Exposure Controls / Personal Protection

#### **Exposure limits**

Component Name		Reference	TWA		
		Kelerence	ppm	mg/m3	
Durandana Etherlana ann dan	r	Italy-OEL	-	10	
Propylene Ethylene copolyme	ei	Canada-OEL	-	10	
Polypropylene		Italy-OEL	-	10	
		Canada-OEL	-	10	

#### Personal protective equipment

Respiratory protection	: No special respiration protection is normally required.				
Eye protection	: Wear safety glasses with side shields, goggles or face shield.				
Protective clothing	: Gloves required when handling hot material. In case of fire, wear MSHA/NIOSH				
	approved self-contained breathing apparatus or equivalent and full protective gear.				
Ventilation	: Provide adequate ventilation when processing material at elevated temperatures.				
Other protective equip	oment: N.A				

# **Engineering Controls** : For molten materials: Provide mechanical ventilation; in general such ventilation should be provided at compounding/ converting areas and at fabricating/ filling work stations where the material is heated. Local exhaust ventilation should be used over and in the vicinity of machinery involved in handling the molten material.

## POLIMAXX

#### **Section 9-Physical and Chemical Properties**

Physical Description:	Opaque, translucent, colorless pellets or white fluff (powder), solid			
pH:	not applicable			
Vapor Pressure:	not applicable			
Boiling Point:	not applicable			
Melting Point:	130-170°C			
Flash Pint:	348 °C (ASTM D1929)			
Auto-ignition:	380 °C			
Solubility:	Insoluble in water			
Specific Gravity:	0.85-0.95			
Density:	0.85-0.95 g/cm <sup>3</sup>			
Bulk Density	400(powder)-600(pellet) kg/m <sup>3</sup>			
Evaporation Rate:	not applicable			
Volatile Matter (wt):	< 0.1%			
Water Absorption (wt):	< 0.05%			
Section 10 – Stability a	nd Reactivity			
Chemical Stability	: This material is considered a stable thermoplastic, with no chemical reactivity under normal ambient and anticipated handling conditions of temperature and pressure.			
Condition to Avoid	: Avoid heating above the recommended processing temperature. DO NOT heat without adequate ventilation.			
Material to Avoid	: May react with strong oxidizing agents, such as chlorates, nitrates, peroxides, etc. May react with free halogens.			
Dangerous decompositio	<ul> <li>Small quantities of low molecular weight hydrocarbons, alcohols, aldehydes (incl. Formaldehyde), carboxylic acids, carbon oxides and ketones can be formed during thermal processing.</li> </ul>			

Hazardous polymerization products : Hazardous polymerization will not occur.

#### Section 11 – Toxicological Information

#### Acute Toxicity

Chemical name			Route	Species	Acute Toxic Value
Polypropylene			Oral	Rat	LD <sub>50</sub> > 8,000 mg/kg
Irritating/corrosive eff	ects			·	
Eye Irritation	ritation : Solid particles may cause transient irritation from mechanical abrasion.				
Skin Irritation	: Not expected to cause skin irritation. Molten material may cause thermal burns.				
Inhalation	n : Not a likely route of exposure. Process fumes may cause irritation				cause irritation
Ingestion	:	May cause a c	hoking hazard if sw	allowed.	
Other information					
Carcinogenic effect:					
International Agency for	Resear	ch on Cancer (	IARC): Group 3		
			NOT clas	sifiable as to its o	carcinogenicity to humans.

#### Section 12 – Ecological Information

<b>Eco-toxicity</b> : No relevant studies identified.			
<b>Persistence and degradability</b> : This material is not expected to be readily biodegradable.			
Bio-accumulative potential	ve potential : Product is not likely to accumulate in biological organisms.		
Mobility in soil	: No relevant studies identified.		
<b>Other adverse effects</b> : This substance is not in Annex I of Regulation (EC) 2037/2000 of			
	that deplete the ozone layer.		
Section 13 - Disposal Consid	lorations		

#### Section 13 – Disposal Considerations

#### **Disposal Methods:**

This material may be recycled if unused, or if it has not been contaminated so as to make it unsuitable for its intended use. Shelf life considerations should also be applied in making decisions of this type. Note that properties of a material may change in use, and recycling or reuse may not always be appropriate. Dispose of by: burial in a land-fill specifically licensed to accept chemical and / or pharmaceutical wastes or Incineration in a licensed apparatus (after admixture with suitable combustible material). Decontaminate empty containers. Observe all label safeguards until containers are cleaned and destroyed.

#### Section 14 – Transport Information

Regulatory information	UN number	Class	Packing group	Label	Additional information
DOT	Not regulated	-	-	-	-
ADR / RID	Not regulated	-	-	-	-
IMDG CODE	Not regulated	-	-	-	-
ICAO / IATA	Not regulated	-	-	-	-

#### Section 15 – Regulatory Information

#### **US Toxic Substances Control Act**

All components of this product are on the TSCA Inventory.

#### **European Inventory of Existing Commercial Chemical Substances (EINECS)**

The components of this product are on the EINECS inventory or are exempt from inventory requirements.

#### EU Directives 67/548/EEC, 1999/45/EC and Regulation (EC) No 1272/2008

The product is not classified as dangerous for supply according to the Regulation (EC) No 1272/2008and the EC directive 67/548/EEC and 1999/45/EC.

#### NFPA - USA

Health – 0, Flammability – 1, Reactivity – 0

#### HMIS - USA

Health – 0, Flammability – 1, Reactivity – 0

#### **Canada - WHMIS**

This product does not meet WHMIS classification criteria.

#### Canada – DSL

This product is listed in DSL.

#### Section 16 - Other Information

The information in this document is based on our best present. Nevertheless, it does not constitute a guarantee		
for any specific product features and does not establish any a legally binding contract.		
DOT	:	Department of Transportation
ADR	:	European agreement concerning the international carriage of dangerous goods by road.
RID	:	Regulations concerning the international carriage of dangerous goods by rail.
IMDG – CODE	:	International maritime dangerous goods code
ICAO	:	International Civil Aviation Organization
IATA	:	International air transport association
GHS	:	Globally Harmonized System of Classification and Labeling of Chemicals
NFPA	:	National Fire Protection Association
HMIS	:	Hazardous Materials Identification System
WHMIS	:	Workplace Hazardous Materials Information System
DSL	:	Domestic Substances List
