

## SAFETY DATA SHEET

Revision Date : 7 May 2020

### Section 1 – Identification

**Product Name** : 1103H  
**Product Type** : PP Homopolymer  
**Product Use** : Raw material for plastic industry, Resin, extrusion and compounding, plastic molding, molded articles, films and coatings  
**Manufacturer** : IRPC Public Company Limited  
 299 Moo. 5 Sukhumvit Road, Amphur Muang, Rayong THAILAND  
**Emergency Call** : +66(0) 38802560  
**Website** : [www.irpc.co.th](http://www.irpc.co.th), <https://polimaxx.irpc.co.th>

### Section 2 – Hazards Identification

**Classification according to Regulation (EC) No. 1272/2008 (CLP) and GHS Classification :**

This product is not classified as dangerous according to Regulation (EC) No 1272/2008 and GHS

**Pictogram** : Not Applicable

**Signal Word** : Not applicable

**Hazard Statement** :

-

**Precautionary Statement** :

-

### Section 3 – Composition / Information on Ingredients

Chemical Name	CAS Number	EC Number	Percent weight
Polypropylene	9003-07-0	Polymer	> 99

#### Section 4 – First-aid Measures

- Skin Exposure** : If molten material comes in contact with the skin, cool under ice water or a running stream of water. DO NOT attempt to remove the material from the skin. Remove could result in severe tissue damage. Get medical attention.
- Eyes Exposure** : If molten material should splash into eyes, flush eyes immediately with fresh water for 15 minutes while holding the eyelid open. Remove contact lenses, if worn. Get immediate medical attention.
- Inhalation** : Move the exposed person to fresh air. If breathing is difficult, give oxygen. Get medical attention if breathing difficulties continue.
- Ingestion** : Do not induce vomiting unless directed to do so by a physician. If person is conscious, rinse mouth with water. Seek medical advice.

#### Section 5 – Fire-fighting Measures

- Suitable extinguishing agents** : Dry chemical, foam, water fog or carbon dioxide.  
Avoid using direct streams of water on molten burning material.
- Hazards during fire-fighting** : Carbon monoxide, carbon dioxide, original monomer other hydrocarbon oxidation products.
- Protective equipment** : Use a mask with universal filler.  
Use self-contained breathing apparatus and full protective clothing.

#### Section 6 – Accidental Release Measures

- Personal precautions** : Avoid inhalation and direct contact with molten material.
- Environmental precautions** : Discharge into the environment must be avoided.

#### Cleanup :

Collect spilled material using a method that minimizes dust generation (e.g., wet methods, HEPA vacuum). Place waste in an appropriate container for disposal. Use care during clean-up to avoid exposure to the material and injury from broken containers.

#### Section 7 – Handling and Storage

- Handling** : Use with adequate ventilation. Avoid dust generation. Accumulations of dust should be removed from settling areas.
- Storage conditions** : Store in a cool, dry, well-ventilated area or silo away from sources of heat, flame and sparks. Ventilate enclosed storage areas, such as trailers and railcars, before entering.

Section 8 – Exposure Controls / Personal Protection

**Exposure limits** :

Component Name	Reference	TWA		STEL			
		ppm	mg/m3	ppm	mg/m3		
		-	-	-	-	-	-

**Personal protective equipment**

- Respiratory protection : No special respiration protection is normally required.
- Eye protection : Chemical workers goggles recommended.
- Protective clothing : Gloves required when handling hot material. In case of fire, wear MSHA/NIOSH approved self-contained breathing apparatus or equivalent and full protective gear.
- Ventilation : Provide adequate ventilation when processing material at elevated temperatures.
- Other protective equipment : Ensure that eyewash stations and safety showers are proximal to the work-station location.
- Engineering Controls : For molten materials: Provide mechanical ventilation; in general such ventilation should be provided at compounding/ converting areas and at fabricating/filling work stations where the material is heated. Local exhaust ventilation should be used over and in the vicinity of machinery involved in handling the molten material.

## Section 9 – Physical and Chemical Properties

<b>Appearance</b>	: Translucent
<b>Odour</b>	: Odourless
<b>Colour</b>	: Not Applicable
<b>Boiling Point</b>	: Not Applicable
<b>Initial Boiling Point</b>	: Not Applicable
<b>Flash Point</b>	: Not Applicable
<b>Melting Point</b>	: 130-170°C
<b>Vapour Pressure</b>	: Not Applicable
<b>Auto ignition temperature</b>	: Not Applicable
<b>Solubility</b>	: Insoluble in water
<b>Viscosity</b>	: Not Applicable
<b>Upper/Lower flammability or explosive limit</b>	: Not Applicable
<b>pH</b>	: Not Applicable
<b>Relative density</b>	: Not Applicable
<b>Vapour density</b>	: Not Applicable
<b>Partition characteristics</b>	: Not Applicable
<b>Specific Gravity</b>	: Not Applicable
<b>Partition coefficient: n-octanol/water</b>	: Not Applicable
<b>Decomposition temperature</b>	: Not Applicable
<b>Explosive properties</b>	: Not Applicable
	:

## Section 10 – Stability and Reactivity

<b>Stability</b>	: This material is considered a stable thermoplastic, with no chemical reactivity under normal ambient and anticipated handling conditions of temperature and pressure.
<b>Condition to Avoid</b>	: Avoid heating above the recommended processing temperature.
<b>Material to Avoid</b>	: May react with strong oxidizing agents, such as chlorates, nitrates, peroxides, etc. May react with free halogens.
<b>Dangerous decomposition</b>	: Small quantities of low molecular weight hydrocarbons, carboxylic acids, carbon oxides can be formed during thermal processing.

### Section 11 – Toxicological Information

**Acute Toxicity** : No relevant studies found.

**Irritating/corrosive effects**

Eye Irritation : Solid particles may cause transient irritation from mechanical abrasion.

Skin Irritation : Molten material may cause thermal burns.

Inhalation : Process fumes may cause irritation.

Ingestion : May cause a choking hazard if swallowed.

### Section 12 – Ecological Information

**Eco-toxicity** : No relevant studies found.

**Persistence and degradability** : This material is not expected to be readily biodegradable.

**Bio-accumulative potential** : Product is not likely to accumulate in biological organisms.

**Mobility in soil** : No data available.

**Other adverse effects** : No data available.

### Section 13 – Disposal Considerations

**Disposal methods:**

This material may be recycled if unused, or if it has not been contaminated so as to make it unsuitable for its intended use. Shelf life considerations should also be applied in making decisions of this type. Note that properties of a material may change in use, and recycling or reuse may not always be appropriate. Observe all label safeguards until containers are cleaned and destroyed.

### Section 14 – Transport Information

Regulatory information	UN number	Classes	Packing group	Label	Additional information
DOT	Not regulated	-	-	-	
ADR/RID	Not regulated	-	-	-	
IMDG CODE	Not regulated	-	-	-	
ICAO/IATA	Not regulated	-	-	-	

## Section 15 – Regulatory Information

### US Toxic Substances Control Act

All components of this product are on the TSCA Inventory.

### European Inventory of Existing Commercial Chemical Substances (EINECS)

The components of this product are on the EINECS inventory or are exempt from inventory requirements.

### Canada – WHMIS

Material is not controlled under WHMIS.

## Section 16 – Other Information

ADR	: European agreement concerning the international carriage of dangerous goods by road.
GHS	: Globally Harmonized System of Classification and Labeling of Chemicals
DOT	: Department of Transportation
IATA	: International air transport association
ICAO	: International Civil Aviation Organization
IMDG-CODE	: International maritime dangerous goods code
NIOSH	: The National Institute for Occupational Safety and Health
NFPA	: National Fire Protection Association
RID	: Regulations concerning the international carriage of dangerous goods by rail.
DOT	: Department of Transportation
HMIS	: Hazardous Materials Identification System
WHMIS	: Workplace Hazardous Materials Information System

### NFPA – USA

Health : 0                      Flammability : 1                      Reactivity : 0

### HMIS

Health : 0                      Flammability : 1                      Reactivity : 0

### SDS Information

GHS Revision : 7

Revision Date : 07/05/2020

Print Date : 07/05/2020 10:17:33
