

# **SAFETY DATA SHEET**

Revision Date : 10 October 2019

Product Name	: GP110
Product Type	: General Purpose Polystyrene
Product Use	: Can be used to produce injection or extrusion molded articles for commercial or Industrial products.
Manufacturer	: IRPC Public Company Limited
	299 Moo. 5 Sukhumvit Road, Amphur Muang, Rayong THAILAND
Emergency Call	: +66(0)38 802560
Website	: www.irpc.co.th, www.irpcmarket.com

Section 2 – Hazards Identification

# Classification according to Regulation (EC) No. 1272/2008 (CLP) and GHS Classification :

This product is not classified as dangerous according to Regulation (EC) No 1272/2008 and GHS

Pictogram : Not Applicable

Section 1 – Identification

Signal Word : Not applicable

Hazard Statement :

**Precautionary Statement :** 

Section 3 – Composition / Information on Ingredients

Chemical Name		CAS Number	EC Number	Percent weight
Polystyrene		9003-53-6	500-008-9	>= 98

#### Section 4 – First-aid Measures

Skin Exposure	: In case of skin contact with hot polymer immediately immerse in or flush with clean, cold water. If irritation develops, seek medical attention.		
Eyes Exposure	: If molten material should splash into eyes, flush eyes immediately with fresh water for 15 minutes while holding the eyelid open.Get immediate medical attention.		
Inhalation	: Move the exposed person to fresh air. If breathing is difficult, give oxygen. Get medical attention if breathing difficulties continue.		
Ingestion	: No first aid procedures are required.Seek medical attention if a significant amount is swallowed.		
Section 5 – Fire-fighting Measures			
<b>Suitable extinguishing agents</b> : Dry chemical, foam, water fog or carbon dioxide. Avoid using direct streams of water on molten burning material.			
<b>Hazards during fire-fighting</b> : Carbon monoxide, carbon dioxide, original monomer other hydrocarbon oxidation products.Carbon monoxide, carbon dioxide, original monomer other hydrocarbon oxidation products.			
<b>Protective equipment</b> : Wear self-contained respiratory protective device.			
Section 6 – Accidental Release Measures			
Personal precautions : Avoid dust formation.			
<b>Environmental precautions</b> : Discharge into the environment must be avoided.			

#### **Cleanup**:

Collect spilled material using a method that minimizes dust generation (e.g., wet methods, HEPA vacuum).Place waste in an appropriate container for disposal.Use care during clean-up to avoid exposure to the material and injury from broken containers.

#### Section 7 – Handling and Storage

Handling	: Exposure of polystyrene to extremely high temperatures may cause partial decomposition.Chemicals that may be released include styrene monomer, benzene, and other hydrocarbons.Handling of pellets may form dust.Filter and ventilate dust where necessary.
Storage conditions	: Store in cool location and ventilated place.Store below 50 °C.Keep away from moisture, excessive heat and sources of ignition.Do not place in direct sunlight.

# Section 8 - Exposure Controls / Personal Protection

**Exposure limits** : No exposure limit value known

# Personal protective equipment

Respiratory protection	: Wear respiratory protection if ventilation is inadequate.Breathing protection device if dust is formed.
Eye protection	: Chemical workers goggles recommended.
Protective clothing	: Gloves required when handling hot material.In case of fire, wear MSHA/NIOSH approved self-contained breathing apparatus or equivalent and full protective gear.
Ventilation	: Provide adequate ventilation when processing material at elevated temperatures.
Other protective equipment	: Ensure that eyewash stations and safety showers are proximal to the work-station location.
Engineering Controls	: For molten materials: Provide mechanical ventilation; in general such ventilation should be provided at compounding/ converting areas and at fabricating/filling work stations where the material is heated.Local exhaust ventilation should be used over and in the vicinity of machinery involved in handling the molten material.

# Section 9 – Physical and Chemical Properties

Apprearance	: Clear and transparent pellets
Odour	: Characteristic odor
Boiling Point	: Not Applicable
Flash Point	: Not Applicable Not Applicable
Melting Point	: Not Applicable
Vapour Pressure	: Not Applicable
Auto ignition temperature	: Not Applicable
Solubility	: Soluble in polar solvent
Viscosity	: Not Applicable Not Applicable
Upper/Lower flammability or explosive limit	: Not Applicable
рН	: Not Applicable
Relative density	: Not Applicable Not Applicable
Specific Gravity	: 1.04 - 1.05 (Water = 1)
Partition coefficient: n-octanol/water	: Not Applicable
Decomposition temperature	: Not Applicable
Explosive properties	: Not Applicable
Softening Point	: > 90 ?C

Section 10 – Stability and Re	activity		
Stability	ity : Stable under normal ambient temperature.		
Condition to Avoid	void : Avoid temperatures above 300°C.		
Material to Avoid	: Avoid solvents and oxidizing agents.		
Dangerous decomposition : Carbon dioxide, carbon monoxide, hydrocarbons, dense smoke.			
Section 11 – Toxicological In	formation		
Acute Toxicity : No releva	nt studies found.		
Irritating/corrosive effects			
Eye Irritation : Prolonged	contact can causes eye irritation.		
Skin Irritation : May cause	tion : May cause skin irritation.		
Inhalation : May cause	tion : May cause allergic respiratory response.		
Ingestion : Swallowing larger amounts may cause injury.			
Section 12 – Ecological Infor	mation		
Eco-toxicity : No relev	ant studies found.		
Persistence and degradabil	<b>ity</b> : The product is not easily biodegradable.		
Bio-accumulative potential	: Insoluble in water. Not expected to be bio-accumulative.		
Mobility in soil	: No relevant studies identified.		
<b>Other adverse effects</b> : No data available.			
Section 13 – Disposal Consid	erations		

#### **Disposal methods:**

This material may be recycled if unused, or if it has not been contaminated so as to make it unsuitable for its intended use. Shelf life considerations should also be applied in making decisions of this type. Note that properties of a material may change in use, and recycling or reuse may not always be appropriate. Dispose of by: burial in a land-fill specifically licensed to accept chemical and/or pharmaceutical wastes or Incineration in a licensed apparatus (after admixture with suitable combustible material) Decontaminate empty containers. Observe all label safeguards until containers are cleaned and destroyed.

# Section 14 – Transport Information

Regulatory information	UN number	Classes	Packing group	Label	Additional information
DOT	Not regulated	-	-	-	
ADR/RID	Not regulated	-	-	-	
IMDG CODE	Not regulated	-	-	-	
ICAO/IATA	Not regulated			-	

#### Section 15 – Regulatory Information

# **US Toxic Substances Control Act**

All components of this product are on the TSCA Inventory.

# **European Inventory of Existing Commercial Chemical Substances (EINECS)**

The components of this product are on the EINECS inventory or are exempt from inventory requirements.

#### Canada - WHMIS

Material is not controlled under WHMIS.
